e-mail: kmetija.sanabor@siol.net

www.sanabor.si

Introduction

There are currently twenty active tourist farms in the area of the LAG for Rural Development of the Land between Snežnik and Nanos, namely the municipalities of Ilirska Bistrica, Pivka and Postojna. The Society aims to provide the support environment for additional marketing of tourist farms as they are a core pillar of tourism in rural areas and give quality that ensures wellbeing of their guests.

The flier gives a brief presentation and contact information of tourist farms in the area. A detailed presentation of the farms is given on their respective websites, which you can also visit via the website of the Society, www.razvoj-podezelja.si, from the Tourist Farms page.

The geographic area stretches between mountains Nanos and Snežnik and hills Brkini and Javorniki. It is thus an excellent starting point for recreational activities from hiking, cycling, fishing on lakes and rivers to a visit to the world famous Karst with the Postojna Cave, Škocjan Cave and a number of other less known Karst caves.

Every season here is interesting in its own way, in particular if linked to home cuisine, which is entirely based on home production.

And another important thing – the area of the LAG is less than an hour drive away from urban centres of Ljubljana, Trieste/Trst, Koper and Rijeka, as it is placed on crossroads of major transport routes.

We kindly invite you for a visit.

The flier was issued with the assistance of the municipalities of Ilirska Bistrica, Pivka and Postojna and the Ministry of Agriculture, Forestry and Food of the Republic of Slovenia, which co-financed the flier within the scope of the LEADER programme.

Flier issued by LAG for Rural Development of the Land between Snežnik and Nanos
